

SUPERIOR MANEUVERABILITY

UICKIE

POWER OF QUICKIE

QUICKIE[®] delivers the world's most comprehensive range of innovative, technically advanced power chairs, created specifically for your clinical and lifestyle needs.

ADVANCED ELECTRONICS

Controllers are optimized to offer the greatest power for max performance. QUICKIE offers customized joysticks, assignable buttons, on-board programming, and Bluetooth/IR controls. Also available are more battery choices to meet your needs and lifestyle.

SOLID CHASSIS

Chassis is formed from a single sheet metal plate for a stronger, more rigid design. (Others are welded or bolted together.) Steel components undergo automotive undercoat plating to resist rust and corrosion.

OCCUPIED TRANSIT

Tested for ISO-7176 Occupied Transit, included at no charge.

END OF LINE TESTING

After a chair is built, QUICKIE performs a final test for performance, noise, and quality, above and beyond industry requirements.

ENGINEERED FOR CONVENIENCE

QUICKIE engineers are not solely focused on performance and quality, we also thought about convenience and serviceability. QUICKIE Q series power chairs are designed for parts commonality, easy battery access, and simple servicing.

QUICKIE

QUICKIE MOTORS

Our robust motor technology can't be replicated anywhere else. That's because we've spent years working closely with our manufacturer to develop a longer-lasting, highly efficient motor with improved performance, drivability, and range.

DESIGNED TO LAST

Unlike our competitors, QUICKIE motors feature metal gears instead of plastic. Polished for low noise and high efficiency, our all-metal gears exceed expectations in the toughest conditions. We go the extra step in polishing those gears because we believe that a little extra effort goes a long way in creating a better ride.

ENGINEERED FOR PERFORMANCE

We've designed our motors to give you the control you need in small spaces without sacrificing the power you want to tackle obstacles. QUICKIE 4-pole motors generate 18% more power than previous generations, plus you'll be able to drive 10% further on the same battery capacity.

MORE EFFECTIVE COOLING

Larger cooling fins enable heat to escape more effectively, reducing your risk of thermal rollback. So you can drive 25% further and faster, even when on an incline or faced with uneven surfaces.

POWER BOOST

Our controller and motor combination work together to provide you with an additional 10 seconds of boost for extra power whenever you need it.

Q500N

MID-WHEEL DRIVE

The QUICKIE Q500 M base balances superb indoor maneuverability with outstanding performance. Its powerful motors combined with all-wheel suspension and QUICKIE's smooth ride, will ensure you have the most comfortable and safe driving experience.

The mid-wheel drive base has the best indoor performance. Its smallest turning radius provides great maneuverability.

OUTSTANDING PERFORMANCE

ALL-WHEEL SUSPENSION

Enjoy a smooth and stable ride, even over uneven terrain, with QUICKIE's patented all-wheel suspension – six independently suspended wheels give you the smooth ride you're looking for. The Q500 M has a 3" ground clearance and the best traction even when ascending gradients of up to 7°.

GOING THE DISTANCE

With ultra-reliable, high torque 4-pole motors powering speeds of 6 mph and Group 34 batteries standard to maximize your range (up to 14 miles), you can always travel with confidence in the Q500 M.

SIMPLE, INTUITIVE DRIVING

Mid-wheel drives offer unmatched maneuverability with a smaller footprint than rear- or front-wheel drives. The Q500 M allows for the most compact turning radius and is extremely intuitive to drive and control.

INDOOR MANEUVERABILITY

The compact dimensions and tight turning radius provide you great access through narrow doorways of as little as 25", on lifts and around confined spaces. Easily transfer in and out and effortlessly access vehicles and under tables with the lower than ever before seat-to-floor height (from 16.5" with powered center of gravity tilt).

Q50CF

HYBRID-WHEEL DRIVE

QUICKIE Q500 H brings you a unique blend of rear-wheel drive and mid-wheel drive technology delivering impressive outdoor performance coupled with indoor maneuverability. Bringing you the best of both worlds and exceptional comfort.

A NEW GENERATION OF POWER

STABLE RIDE

Intelligent, active rear anti-tips ensure all 6 wheels remain in contact with the ground for enhanced traction and stability. The Q500 H's fixed front casters prevent the chair from tipping forward while the dynamic suspension system keeps both drive wheels and casters in contact with the ground.

INCREASED MANEUVERABILITY

Unlike conventional rear wheel drive bases the Q500 H's drive wheel position ensures a smaller turning radius for increased indoor maneuverability but without compromising stability and outdoor performance.

EXCEPTIONAL RIDE COMFORT

The innovative, dynamic suspension system actively absorbs impacts over thresholds and rough terrain to enhance ride comfort and seat stability and to reduce fatigue and ultimately extend the time a user can sit in the chair.

PERFORMANCE

The large front casters not only provide a more stable ride, but they allow greater ability to climb obstacles. Additionally, these large casters absorb more impact giving you both performance and a smoother ride.

SEDEO® PRO™ HIGHLY CUSTOMIZABLE SEATING

The SEDEO PRO is a fully adjustable and configurable seating frame with a wide range of comfort cushions and positioning options. With its diverse selection of armrests, armpads, legrests, seat and back cushions, headrests, and positioning accessories, SEDEO PRO offers great flexibility to adapt to individual needs.

QUICK AND EASY TO ADJUST

We've made it easy for healthcare professionals to create the right seating posture and maintain it for changing needs.

- Intuitive adjustments using just one tool
- A wide range of adjustments for varying and changing needs
- Seat width and depth, back height, and armrest width all can be adjusted and repositioned to create the best support in the shortest amount of time

WIDE ARRAY OF OPTIONS

TILT, ELEVATE, AND RECLINE

The SEDEO PRO offers 50° of tilt with automatic COG adjustment for improved weight distribution and stability. In addition to the low seat-to-floor height, enjoy 12 inches of elevate, rated at up to 300 lbs!

BACKREST OPTIONS

Choose from 4 options: (1) fixed, (2) user-adjustable manual semi-recline, (3) 130° powered semi-recline or (4) a 150° powered recline backrest. The 150° powered recline backrest offers 4" of anti-shear to minimize the sliding between you and the cushion.

LEG AND FOOT POSITIONING

The SEDEO PRO offers a full array of footrest options. You can choose a power elevating and articulating legrest which allows for optimal positioning and comfort. Power elevating legrests are available as centermount or individual swing-away versions. Alternatively, you can choose a manual elevating swing-away legrest or traditional fixed angle style in both swing-away or centermount.

EXCEPTIONAL, VERSATILE POSITIONING

Many positioning elements are available such as headrests, lower extremity supports, swing-away lateral thoracic supports, thigh supports, or knee supports. All positioning elements are adjustable and detachable or can be swung out of the way for easier transfers.

FLIP-BACK ARMRESTS

The easy to operate flip-back armrest gives you unencumbered transfer space. Choose from a removable or reclining version. A single post removable armrest is also available. All are compatible with four armpad options.

JAY[®] SYNCRA™ SEATING

POSITIONED FOR RECLINE

JAY[®] Syncra[™] is a cohesive and attractive seating system specifically designed for performance with tilt and recline systems. Syncra has a width and height adjustable back, a cushion that fits mild to complex seating needs, and positioning accessories for support and stability.

JAY[®] Syncra[™] is the optimal seating for power wheelchair users who have a history of pressure injuries.

JAY CRYOFLUID™

The JAY Syncra cushion is also available with the revolutionary, patented JAY Cryo[™] Technology. JAY Fluid evenly distributes pressure across the seating surface and around bony prominences while the CryoFluid[™] actively cools the skin for up to eight hours.* The combined technology offers a dramatic improvement in tissue injury prevention.

DESIGNED EXCLUSIVELY FOR THE QUICKIE® SEDEO® PROTM

JAY[®] & WHITMYER[®] SEATING OPTIONS

A wide range of JAY cushions and backs were optimized to fit the SEDEO PRO for advanced postioning capabilities. All the style, comfort and adjustability you've come to know and love with WHITMYER has been carried over to the SEDEO PRO with a new design that integrates the headrest post seamlessly into the PRO back.

Designed for pelvic stability, skin protection and comfort, JAY cushions and backs are low maintenance, highly customizable and available in a wide variety to meet your needs.

JAY Union®

JAY J3[®] Back

WHITMYER® HEADRESTS

Purposefully engineered to address a range of needs from basic support to multiple-point control, WHITMYER headrests have five mounting options and a variety of pad shapes and sizes for superior head positioning and comfort.

PLUSH w/AXYS

PLUSH w/Cobra

R-NET ADVANCED JOYSTICK

The Q500 is available with the superior R-net Advanced Joystick. A large, easy-to-read display – largest in the market – and simple to control paddle switches allow for intuitive operation.

CONNECT

Seamlessly take control of your environment using the integrated infrared functionality. Use your joystick like a remote control for your TV and select home entertainment systems.

BLUETOOTH® WIRELESS TECHNOLOGY

Control your phone, computer, tablet and all Bluetooth[®] devices with this useful option. Connect and control up to four devices. Compatible with Android[™] and Apple[®]iOS devices.

QUICKIE PATENTED ASSIGNABLE BUTTONS

Change the function of any button on your joystick to any command you desire, thanks to QUICKIE assignable buttons. You can also assign a second (long press) function to buttons, giving you quicker, simpler and smoother access to functions you commonly use without having to use your joystick.

SWITCH-IT™ INNOVATIVE CONTROLS CTRL+5®

Conveniently access five seating functions with the Ctrl+5. It allows you to go straight to the function you need at the touch of a button. Available in push-button (shown) or toggle.

ALTERNATIVE DRIVE CONTROLS

If driving with a traditional joystick is not the best option, alternative drive controls allow you to fully experience your chair's driving capabilities and benefits.

MICROGUIDE– Light-touch proportional control.

If you could benefit from light force requirements but need the feedback of joystick movement, the MicroGuide is the ideal choice.

VERSAGUIDE– Compact proportional control.

Fully proportional, durable, and compact, the VersaGuide can be mounted virtually anywhere. It comes with two on/off, mode SmartJacks which automatically adapt to both proximity and mechanical switches.

DUAL PRO®- Truly proportional head array for intuitive driving.

The Dual Pro is a truly proportional head array with fine-tuned adjustments and customization. The Dual Pro can be programmed conveniently from the back of the head array and customized to your strengths and capabilities.

LINK-IT[™] MOUNTING SYSTEM

Need to use additional switches or specialty controls? No problem! Easily connect them using the universal Link-It Mounting System.

Using a combination of available modules and rods, create endless combinations. It's easy to position and ensures your wheelchair maintains its sleek look. Whether it's an extra controller on the armrest, a push button on the backrest or a switch on the headrest, just link-it.

CAPTAIN SEAT RELAXED COMFORT

The Captain's Seat provides a relaxed sitting position and features a semi-recline, fold-down backrest, adjustable seat size, and convertible seat pan that allows you to use your preferred cushion. Available with a 50° tilt and power centermount legrest.

CAPTAIN

- Depth adjustable seat size, legrest placement, and armrest width
- Convertible seat pan for flexibility in cushion selection
- Semi-recline and fold-down backrest
- Optional oxygen, crutch, and walker holders

DISTINGUISHED STYLE

With the Q500 series, we've taken style to the next level. With a matte black chassis finish, hidden wiring and premium upholstery, the Q500 has a sleek and contemporary design.

The Q500 comes with a Matte Black shroud and your choice of six contemporary color inlays to beautifully accent the matte black bodywork. Fancy a change? Simply replace the color inlays. Styling your powered wheelchair has never been so simple.

Additionally, the Q500 **M** offers your choice of eight different shroud colors to reflect your personal style. *(Color accents are only available with the Matte Black shroud.)*
