

SR45™

The smart choice for intelligent rotation, adjustability and durability.

Nothing Beats a Quickie™

The Quickie® SR45™ is the newest member of the acclaimed Quickie tilt-in-space family and features 45 degrees of patented and proven IRIS tilt technology and a targeted offering of clinically effective options.

Smart Option Mix

The portfolio of options and accessories available on the SR45 meets the needs of a wide range of clients. Newly redesigned Quickie compatible options include a swing-in/swing-out forward mount latch hanger and low profile dual post armrest.

Newly designed for SR45

Low Profile Dual Post Armrest

Swing-in/Swing-out Hanger

Steel Base

Available with SR45 and other Quickie Tilt Products (IRIS, IRIS SE)

Adjustable Stroller Handle

Foot Release Tilt Actuator

Cable Management

Rotation-in-Space Technology

The Quickie SR45's seat frame rotates around the client's center of gravity providing the shortest possible wheelbase without compromising stability. When the center of gravity and center of rotation are properly aligned, tilting is smooth, easy and controlled.

Seat Frame Set-up Options

When ordering the SR45 you have a choice of frame set up by Quickie or selecting a specific depth range.

Frame Set-up by Quickie: Client anatomical measurements are used to determine the frame configuration necessary to optimize the center-of-gravity to center-of-rotation relationship.

Selection of Specific Depth Range: If you choose to select one of the 3 depth range options, the frame can be adjusted to 5 different width x depth configurations.

Adjustments for Optimal Stability

Just like the Quickie IRIS™, the rocker assembly adjusts on a horizontal plane to optimize front stability and the wheel and anti-tip can be adjusted along the base frame to optimize rear stability.

SPECIFICATIONS Quickie SR45

HCPCS Code	E1161
Frame Style	Tilt-in-Space
Tilt Range	0" – 45"
Transport Weight	30 lbs.
Overall Weight	39 lbs.
User Weight Capacity*	265 lbs.
Seat Width	14" – 20"
Seat Depth	14" – 22"
Front Seat-to-floor Height	14" – 20.5"
Warranty	Lifetime

* Please note: This includes user weight and items on chair.
