

# Catalyst / Spark Dynamic Rocker Back

*This backrest style was released February 8th, 2021. When retrofitting, a depth adjustable rear frame is required. For a complete retrofit, you will need the Dynamic Rocker Back (PAIR), Frame Attaching Hardware Kit for Rocker Back (qty 2) and desired back post assemblies (qty 1 or 2 depending on kit selected). If retrofitting from the Discontinued Stroller Handle Extensions to this Removable Stroller Handle Extension, you will need to order the desired Stroller Handle Back Post with Removable Stroller Handle Extension for Rocker Back (Depth Adjustable) kit; part #'s 114181 - 114188. Low Profile Push Handles are not available with Heavy Duty Option or Drum Brake. If changing from another style backrest and the Drum Brake is present, a new Drum Brake Cable Kit may be required.*

Item Number	Part Number	Description	Quantity
