

# AIRGRIP

## LIGHTEN UP WITH COLOUR.

Conventional grips will only get you so far. Standard plastic coating adds weight and heats up easily with friction. And if the coating cracks and peels, it can injure hands. Plus, conventional grips...all look the same!

Enter the Newton Airgrip. Our coating is engineered to reduce overall weight by a remarkable 1 lb. It won't peel or crack, so it's safer. And our coating will reduce hand-burning heat as you stop or slow down. Best of all, Newton Airgrips are available in a range of eye-popping colors. Plus standard black, of course. Newton Airgrips. Lighten up!

- Express yourself. 11 awesome colors
- Ultralight. 1lb. (440 g) less weight compared to standard grips, for better mobility
- "Grippy" touch yields higher energy transfer
- Engineered Newton coating reduces hand-burning friction
- Easy and safer on hands. Won't peel or crack
