

aerofly™ Ultra-Lite Wheelchair

Easy to Carry, Hard to Beat

Ultra-lightweight yet ultra-capable, the AeroFly™ Ultra-Lite Wheelchair is engineered for users who live life on the move. With a sleek, modern design and a frame that weighs just 13.3 lb.*, it's among the lightest wheelchairs in its class. It's competitively priced and incredibly easy to ship, store, and deliver.

Effortless Patient Adoption

Offers stress-free portability your customers will love thanks to lightweight yet durable magnesium alloy construction, fold-down backrest, quick-release rear wheels, and built-in carry handles.

Fully Equipped to Keep Customers Safer

Safety comes standard with included wheeled anti-tippers, plus a dual braking system, treaded tires for improved traction and stability, and European-style footrests with integrated heel loops to keep feet secure.

Protects Your Margins

Competitively priced against similarly equipped ultra-lightweight wheelchairs to maximize your returns with MAP pricing to ensure you won't be undercut.

Stands Out to Sell More

Differentiate your offerings and draw customers to your showroom with the sleek and stylish patent-pending frame design in a choice of two premium finishes.

*Transport weight – excludes rear wheels, anti-tippers, and footrests. Total product weight is 19 lbs with rear wheels attached.
